

Planning Canadian Weddings Wedding Day Planning Agenda

Make a Note of Times, Places and Who is Involved. We have left extra spaces for additional wedding planning items for your specific wedding day and specific details and to move things around if your wedding day is organized differently. Feel free to design your own wedding day schedule for your wedding day using ours as an example. Give a couple to each of your wedding party and each of your wedding vendors. Remember to get lots of sleep the night before, eat and drink water throughout the day and try to relax and enjoy your day, focusing on the love that surrounds you from all your friends and family and each other.

Time	Location/Address/Details	Wedding Day Agenda
